Snorkeling Mnemba is a protected oceanic area off northeastern Zanzibar near Matemwe with excellent visibility depths ranging from ten to thirty meters. It includes the small triangular island of Mnemba and a reef area comprising two by four miles.

This breathtaking marine ecosystem is famous for sightings of green turtles and dolphins that like to join you as you snorkel or dive while the seasonal migrating whale sharks and humpback whales announce their presence with an occasional spout of water. On your dive tour of Zanzibar, you will learn of the five main diving locales around Mnemba.

Kichwani with its many shaded fish like leaf fish, frogfish, and nudibranchs is perfect for both beginners and advanced PADI divers. A gentle incline of the coral wall, it slopes to thirty meters. And if you were to visit the Sand Banks while diving on your Indian Ocean Island holiday in Zanzibar, you could spot eagle rays, frogfish, batfish, seahorses, and snappers among others.

Then there is the Aquarium where you will find garden eels, white-tip reef sharks, green turtles, groupers, and surgeonfish to name a few. Watabomi also called Eel City is also suitable for all levels of divers and offers glimpses of anthias, moray eels, lionfish, scorpionfish, and many more.

Mnarani Natural Aquarium at Nungwi Mnarani, In The Aquarium you will swim with turtles for almost Half a day. Escape to Northern Zanzibar where a natural lagoon is full of sea turtles. And during the visit, you can also feed turtles with seaweed or just spend your time in the water with them.

You can also take a snorkeling mask to dive and watch them in their natural environment.
